

Poster Presentation

No.	Paper ID	Primary Author	Affiliation	Country	Abstract title
1	20006	Seungwoo KIM	Departments of Otorhinolaryngology, Veterans Health Service Medical Center, Seoul, Korea	Korea	Thyroid Insular Carcinoma with Multiple Bone Metastases Presenting As Pyriform Sinus Mass
2	20012	Haruhiko Yamazaki	Kanagawa Cancer Center	Japan	Efficacy and Safety of Lenvatinib for Unresectable Anaplastic Thyroid Cancer
3	20015	Masao Takenobu	Kusatsu general hospital	Japan	Experience with the usage of sorafenib in our department
4	20016	MNaseem Baloch	Jinnah Postgraduate Medical Center	Pakistan	A Case Of Huge Neck Swelling; An Unusual Presentation
5	20019	Ming-Hsun Wu	National Taiwan University Hospital	Taiwan	Ultrasonographic Features in Differentiating Follicular Thyroid Carcinoma and Adenoma
6	20020	Ryuhei Okada	Department of Head and Neck Surgery, Tokyo Medical and Dental University	Japan	Medullary thyroid carcinoma detected based on elevated serum procalcitonin levels: A case report
7	20022	Ryutaro Uchi	Graduate School of Medical Sciences, Kyushu University	Japan	The treatment and outcome analysis of anaplastic thyroid carcinoma
8	20023	Hideyuki Kataoka	School of Health Science, Faculty of Medicine, Tottori University	Japan	Long-term outcome of laterofixation for bilateral vocal cord paralysis; a histopathological study of a recurrent case of thyroid cancer
9	20028	Ryuji Yasumatsu	Department of Otorhinolaryngology, Kyushu University	Japan	The treatment and outcome analysis of primary squamous cell carcinoma of the thyroid
10	20029	Moriyasu Yamauchi	Saga University, Department of Otolaryngology- Head & Neck Surgery	Japan	Management of thyroid metastasis from renal cell carcinoma: A case report and review of literature
11	20030	Masaaki Higashino	Osaka Medical College	Japan	Clinical features of poorly differentiated thyroid papillary carcinoma
12	20033	YoungGyu Eun	Department of Otorhinolaryngology - Head and Neck Surgery, School of Medicine, Kyung Hee University	Korea	Clinicopathologic Characteristics and Pattern of Central Lymph Node Metastasis in Papillary Thyroid Cancer Located in the Isthmus
13	20034	KeeHwan Kwon	Department of Otorhinolaryngology-Head and Neck Surgery, Ilsong Memorial Institute Head and Neck Cancer Center, Kangdong Sacred Heart Hospital, Hallym University College of Medicine	Korea	Predictive Factors of Contralateral Paratracheal Lymph Node Metastasis in Papillary Thyroid Cancer; Prospective Multi-center Study
14	20038	Hideaki Kouzaki	Shiga university of medical science	Japan	Effectiveness of Lenvatinib for Thyroid Cancer; Four case reports
15	20040	Jin-Woo Park	Chungbuk National University Hospital	Korea	Extranodal extension in metastatic lymph nodes is more frequent in papillary thyroid carcinoma with extrathyroid extension
16	20041	Aysenur Meric	Bezmialem Vakif University, Faculty of Medicine, Department of Otorhinolaryngology	Turkey	Hypoparathyroidism in total thyroidectomy due to benign thyroid diseases
17	20044	Hideharu Abe	Dept. of otorhinolaryngology, Head & Neck Surgery University of Toyama.	Japan	Usefulness of preoperative puncture drainage of cystic part of the tumor to prevent the tracheostomy in a patient with a large papillary carcinoma of the thyroid.
18	20045	Sumito Jitsukawa	Department of Otolaryngology Hakodate Goryoukaku Hospital	Japan	Sorting nexin 5 restrains the oncogenic setting for thyroid cancer

Poster Presentation

No.	Paper ID	Primary Author	Affiliation	Country	Abstract title
19	20048	WeiKin Chong	Duke-NUS	Singapore	Impact of radioiodine ablation on Quality of Life (QoL) scores among thyroid cancer patients - preliminary analysis
20	20053	YUSUKE NAKATA	SHIGA UNIVERSITY OF MEDICAL SCIENCE	Japan	A pediatric case of Plummer's disease
21	20058	Dong-Il Sun	The Catholic University of Korea	Korea	Predicting factors prognostic of unilateral vocal fold paralysis after thyroidectomy: The utility of early post-operative evaluation 2 weeks after thyroid surgery
22	20059	IkJoon Choi	Department of Otolaryngology-Head and Neck Surgery, Korea Cancer Center Hospital	Korea	A comparison of Quality of life between open and endoscopic thyroidectomy for papillary thyroid cancer.
23	20060	Aiko Oka	Shikoku Cancer Center	Japan	Risk factors of hypothyroidism after hemithyroidectomy.
24	20061	HoJin Son	Department of Otolaryngology-Head and Neck Surgery, School of Medicine, Catholic University of Daegu	Korea	Is combined elective unilateral central neck dissection and thyroid lobectomy necessary for the treatment of papillary thyroid carcinoma less than 1cm?
25	20062	Takuma Makino	Department of Otolaryngology, Himeji Red-Cross Hospital	Japan	Computed tomography for the diagnosis of follicular thyroid neoplasm
26	20064	Yu Zhang	Department of Oncological Surgery	China	Integrated analysis of long noncoding RNAs and mRNAs reveals their potential roles in papillary thyroid carcinoma with Hashimoto thyroiditis
27	20066	Ayuko Oba	Juntendo Urayasu Hospital	Japan	The efficacy of hyperfractionated radiotherapy for Anaplastic thyroid carcinoma
28	20067	Yukari Endo	Department of Pathology, Tottori University Hospital	Japan	Significance of combined use of LBC specimens for aspiration cytology for thyroid nodules
29	20068	Davin Yavapolkul	Center of excellence in Otorhinolaryngology, Head and Neck Surgery, Rajavithi Hospital	Thailand	Well-Differentiated Thyroid Carcinoma : Data in Head and Neck Cancer Referral Center, Bangkok, Thailand
30	20069	Ching-Yi Yiu	Department of Otolaryngology, Chi Mei Medical Center, Liouying, Taiwan, R.O.C.	Taiwan	The use of fine-needle aspiration cytology and frozen section in the thyroid cancers
31	20070	Moon JeongHwan	Department of Otolaryngology-Head and Neck Surgery, College of Medicine, Dankook University	Korea	Low-Level Laser Therapy Promoted Aggressive Proliferation and Angiogenesis Through Decreasing of Transforming Growth Factor- β 1 and Increasing of Akt/Hypoxia Inducible Factor-1 α , in Anaplastic Thyroid Cancer
32	20071	Myung-Chul Lee	Korea Cancer Center Hospital	Korea	Comparative study of various endoscopic approaches for thyroidectomy in a single institute
33	20072	Shunji Tamagawa	Department of Otorhinolaryngology-Head and Neck Surgery, Wakayama Medical University	Japan	The relation between microRNA and EMT in anaplastic thyroid carcinoma cells
34	20074	Woo-Jin JEONG	Department of Otolaryngology - Head & Neck Surgery, Seoul National University Bundang Hospital	Korea	Post-Thyroidectomy Hematoma: Risk Factor Analysis with Perioperative Considerations
35	20075	Tzechoong Charn	Singhealth	Singapore	The adoption of blended learning for Head and Neck anatomy
36	20082	Jin-Choon Lee	Department of Otolaryngology-Head and Neck Surgery, Pusan National University Yangsan Hospital	Korea	Clinical Characteristics and Surgical Strategy for Isthmic Papillary Thyroid Cancer
37	20085	Kazuya Kurakami	Department Otolaryngology, Head and Neck Surgery, Yamagata University Faculty of Medicine	Japan	Two cases of ectopic thyroid tissue in the lateral neck
38	20086	Hidenori Suzuki	Aichi Cancer Center Hospital	Japan	Correlation between lymph node density and survival outcomes in differentiated papillary thyroid carcinoma based on the eighth edition UICC
39	20087	Kodai Tsuchida	Iwate Medical University	Japan	A case of papillary thyroid microcarcinoma with huge cystic neck lymph node metastasis
40	20088	SIEWYEP HOH	University Malaya	Malaysia	Supraclavicular island pedicle flap as treatment option for recurrent metastatic papillary carcinoma with extensive local skin involvement.

Poster Presentation

No.	Paper ID	Primary Author	Affiliation	Country	Abstract title
41	20089	Yusuke Sakaguchi	Dokkyo Medical University	Japan	Piriform sinus fistula: Experience in Dokkyo Medical University Hospital
42	20091	Keitaro Fujii	Division of Head and Neck Surgery, Miyagi Cancer Center	Japan	A Case of Massive Papillary Thyroid Carcinoma in which Larynx was Successfully Preserved
43	20092	kazuhiro kishimoto	Division of Head & Neck surgery, Miyagi cancer center Hospital	Japan	A Case of an Obese Patient, who Developed Phrenic Nerve Paralysis Following a Progressive Papillary Thyroid Carcinoma Surgery, where Postoperative Management was Difficult
44	20094	Shun-Siang Chong	University Malaya	Malaysia	Wide Resection of Sternal Metastasis in Follicular Thyroid Cancer: A Case Report
45	20095	Naoki Shimizu	Nara Hospital, Kinki University School of Medicine	Japan	Secondary thyroid carcinoma from ALK-positive pulmonary neuroendocrine tumor
46	20096	Daizo Murakami	Department of Otolaryngology-Head and Neck Surgery, Kumamoto University Graduate School of Medicine	Japan	Tracheostomy management in patients presenting airway obstruction with unresectable thyroid malignant tumors
47	20099	Daisuke Saito	Iwate Medical University	Japan	Adenolipoma of the Thyroid Gland
48	20101	Miri Toh	Department of Otolaryngology, Juntendo University Faculty of Medicine, Shizuoka, Japan	Japan	Tracheal stenosis due to huge adenomatous goiter
49	20106	Rie Nakayama	Saiseikai Utsunomiya Hospital	Japan	One-stage reconstruction of tracheal defect for invasive thyroid carcinoma: a series of 3 cases
50	20113	Yoshinobu Hirose	Department of Otolaryngology, Yamaguchi University Graduate School of Medicine	Japan	EXTENSION OF TUMOR THROMBUS TO BRACHIOCEPHALIC VEIN IN PAPILLARY THYROID CARCINOMA
51	20114	HYUNKEUN KWON	Pusan national university hospital	Korea	Clinical significance of PET-CT in recurrent papillary thyroid cancer
52	20116	Nobuyasu Suganuma	Kanagawa Cancer center	Japan	Non-functioning parathyroid carcinoma
53	20120	Yosuke Nakanishi	The department of Otorhinolaryngology, Head and Neck Surgery, Kanazawa university	Japan	Lenvatinib therapy for advanced thyroid cancer
54	20124	Naruhiko Morita	Kobe University Hospital	Japan	Surgical approach for thyroid cancer extending to mediastinum
55	20127	Tsuyoshi Morisaki	Department of Otolaryngology-Head and Neck Surgery, Faculty of Medicine, Tottori University	Japan	Tyrosine kinase inhibitor treatments for the three patients with symptomatic bone metastasis of thyroid cancer
56	20128	Takenori Ogawa	Department of Otolaryngology-Head and Neck Surgery, Tohoku University Graduate School of Medicine	Japan	A case report of diffuse sclerosing variant of papillary thyroid carcinoma which metastasized to the larynx and hypopharynx
57	20131	HARISH CHAND TANEJA	UNIVERSITY COLLEGE OF MEDICAL SCIENCES	India	Correlation of Fine needle aspiration cytology with final histopathological diagnosis in thyroid cancer.
58	20132	Atushi Hanamoto	Osaka City General Hospital	Japan	Prognostic Value of Metabolic Tumor Volume in Thyroid Cancer
59	20133	Eunice D Kwa	National University Hospital Singapore	Singapore	Use of veno-venous extracorporeal membrane oxygenation (V-V ECMO) in airway crisis for impending airway obstruction in a patient with huge thyroid tumour with tracheal compression
60	20134	Keisuke Enomoto	Department of Otolaryngology-Head and Neck Surgery, Kinan Hospital, Wakayama, Japan.	Japan	The three cases of anaplastic thyroid cancer in our hospital
61	20136	LOKYOUNG KIM	CHONNAM NATIONAL UNIVERSITY HWASUN HOSPITAL	Korea	Surgical Management of Tracheal Invasion by Thyroid Papillary Carcinoma : Our Experience and a Review of Literature.
62	20137	Buichirou Shin	Department of otolaryngology and neck surgery, Kurume university, school of medicine	Japan	Treatment with Lenvatinib to Anaplastic Thyroid Cancer: Report of Two Cases
63	20138	Hiroshi Tsuge	Nagoya City University Graduate School of Medical Sciences	Japan	Metastasis of thoracic esophageal carcinoma to the thyroid: a case report

Poster Presentation

No.	Paper ID	Primary Author	Affiliation	Country	Abstract title
64	20139	Hiroshi Katoh	Department of Breast and Endocrine Surgery, Kitasato University Hospital	Japan	The roles of quantitative amplitudes of neuromonitoring during thyroid and parathyroid surgery
65	20143	Ryo Ikoma	Department of Otolaryngology, Yokohama Minami Kyosai Hospital	Japan	2 cases of anaplastic thyroid carcinoma
66	20144	Wilaporn Phakdeedindan	Department of Otorhinolaryngology, Thammasat University Hospital, Thammasat University, Pathumthani, Thailand	Thailand	Occult Follicular Thyroid Carcinoma With Right Shoulder Metastasis : Case Report in Thammasat University Hospital.
67	20147	Hitoshi Hirakawa	Department of Otorhinolaryngology, Head and Neck Surgery, Graduate School of Medicine, University of the Ryukyus,	Japan	Nivolumab-induced thyroid dysfunction : a case report
68	20148	Yoshiaki Mori	Yokosuka kyosai Hospital	Japan	A single-center experience of Sorafenib treatment in patients with advanced thyroid cancer
69	20149	Mitsuhiko Nakahira	Saitama Medical University International Medical Center	Japan	Clinical utility of lenvatinib for advanced thyroid cancer: A single center experience
70	20150	JIEYUN PARK	Division of Nursing, Advanced Practice Nurse, Severance Hospital, Yonsei University, Seoul, Korea, Republic of	Korea	The Role of Advanced Practice Nurses In South Korea In Understanding Thyroid & Head And Neck Cancer Patients Survivorship
71	20151	Masafumi Kanno	FUKUI University	Japan	The prognostic factors of after surgical treatment of thyroid cancer
72	20152	Il-Seok Park	Otorhinolaryngology- head and Neck Surgery, Endocrine-Thyroid center, Hallym University Medical Center	Korea	BRAF-WILD PAPILLARY THYROID CARCINOMAS HAVE TWO DISTINCT mRNA EXPRESSION PATTERNS WHICH HAVE DIFFERENT CLINICAL BEHAVIORS
73	20153	Kana Yoshioka	Kusatsu general hospital	Japan	Thyrolipomatosis: A case report
74	20154	Hidetoshi Kinjo	Department of Otorhinolaryngology, Head and Neck Surgery, University of the Ryukyus	Japan	Renal cell carcinoma metastasis in thyroid
75	20155	Hiroyuki Maeda	Department of Otorhinolaryngology-Head and Neck Surgery, Graduate school of Medicine, University of the Ryukyus	Japan	A case of metastasis of anaplastic thyroid carcinoma to cardiovascular system
76	20156	Shinya Agena	Department of Otorhinolaryngology, Head and Neck Surgery Faculty of Medicine, University of the Ryukyus	Japan	Experience of Vandetanib for medullary thyroid carcinoma in our department.
77	20158	Kazuyoshi Kuroda	Department of Otorhinolaryngology, Head and Neck Surgery, Kansai Medical University	Japan	Occult papillary thyroid carcinoma presenting as sudden vocal fold palsy caused by extracapsular extension of lymph node metastasis invading vagus nerve
78	20159	Tan Hiang Khoon	Singapore General Hospital	Singapore	Distant metastasis as the sole manifestation of well-differentiated thyroid carcinoma
79	20160	Daisuke Kawakita	Department of Otorhinolaryngology, Head and Neck Surgery, Nagoya City University Graduate School of Medical Sciences	Japan	Lenvatinib therapy for advanced or metastatic thyroid cancer in NagoyaCity University Hospital
80	20162	Ji Suk Choi	Severance Hospital, Republic of Korea	Korea	Basic concept of four robotic arms docking technique for robotic assisted total thyroidectomy
81	20163	Khwannara Ketwong	Minimally Invasive and Endocrine Surgery Division, Surgery Department, Police General Hospital, Bangkok, Thailand	Thailand	Non-recurrent laryngeal nerve in Transoral Endoscopic Thyroidectomy Vestibular Approach (TOETVA)
82	20165	Thanadeth Vongjarukorn	Minimally Invasive and Endocrine Surgery Division, Surgery Department,	Thailand	Ten cases report of Transoral Endoscopic Thyroidectomy Vestibular Approached (TOETVA) after previous TOETVA surgery
